

Category: 5000 - Business	Policy Number 5520
Policy Title: Library Funding	Effective Date: November 20, 2013

The Community-School library concept provides library service to the community through the school library. This library service is funded by a separate library levy on the local property. This cooperative arrangement is accomplished to eliminate duplicate expenses (i.e. building, maintenance, custodial, material, etc.) and enhance library service to school and community.
