

Category: 6000 INSTRUCTION	Policy Number: 6538
Policy Title: Guest Speakers	Effective Date: November 18, 2015

Any instructional personnel wishing to invite a guest speaker to present to students attending this district must receive prior approval from the building principal. Speakers must be carefully selected and their content screened for appropriate topics to be presented to school-age children. Teachers and Substitute Teachers have an ethical obligation to continue to supervise the classroom and should not turn the students over to the guest speaker and then leave the premises. The guest speaker is expected to use appropriate language and materials when addressing the class. Vulgarity or explicit visual or audio materials are not acceptable in the classroom at any age. All visual or audio materials brought in or presented by the guest speaker are subject to the requirements of Policy 6518. Speakers brought in for addressing maturation are subject to the limitations of District Policy #6422.

Teachers will submit form 6538f1 for approval of guest speakers.
