

As we begin the school year on August 19th for most students, please remember to bring your face mask or shield.

Buses and hallways are crowded and we cannot maintain reasonable distance at all times. Please cooperate in our effort to keep everyone COVID free and our schools open.

Students grades 4 through 12 are expected to have face coverings in congested areas.

Bus Island Changes

In order to create more room for social distancing on the Bus Island, the area used for bus drop off and pick up has been expanded. Buses will be spaced out further, creating a larger area for students to line up and social distance. In order to maintain safety for students within this expanded area, **the front gate leading to the high school will be closed at 7:20 AM.** It will remain closed until all buses have exited the Bus Island. All high school traffic will be directed to 900 W (Wilson Road, below the football field).

Parents dropping off students to the Bus Island, along with junior high traffic, will still be accessible from HWY 39 (same as previous years).
